

At Lilleshall we aim to develop SMSC through Design Technology by

Spiritual

- Use of imagination and creativity through product design
- Have a sense of enjoyment through design, development and making the product - range of products, cooking
- To reflect on their own work and respect others
- Have an appreciation of beauty through structures (bridges/religious buildings)

Moral

- Encourage respect for others and their work (design/products)
- Work co-operatively, respecting the classroom environment and equipment
- Encourage sustainability through recycling and up cycling

Social

- Promote a sense of community (impact on environment) using the language of learning to encourage independence and self-respect
- Celebrate success with class displays, newsletters, parent afternoons and year groups
- Encourage group/class discussions to resolve conflicts - promoting group work/accept roles within the group
- Making and sharing food as a social event

Cultural

- To understand own heritage and how other cultures influence design
- Explore a range of materials and equipment used by different cultures (Egypt, structures, food technology)
- Compare projects/structures/designs on local, national and global communities
- Gain inspiration through visiting exhibitions (Ironbridge)

Celebrate food - Come Dine With Me - from other cultures
