

## E-Safety Meeting Minutes

Date: 1.7.25

Present: OL, IM, BDQ, GG, SC, KD, LD, HW, LD, LB, Miss Evans

For our final E-Safety session of the year, we decided that it was important for us to leave our peers with one final message about staying safe online. We talked about six weeks being a very long time without any Internet Safety lessons and that most children will spend time online over the Summer. In small groups, we used AI (artificial intelligence) to help us create raps and songs with key messages. After a while, we performed these to the rest of the group and voted for our favourite one. Miss Evans explained that we will perform this in assembly before we break up for the Summer holidays and also put this into July's newsletter.
