

E-Safety Team Meeting Minutes

Date: 23.10.25

Present: GG, LD, IM, BDQ, HW, SC, KD, LD, LB, IB, AB, Miss Evans, Mrs Giles

Today, we welcomed our newest members to the E-Safety Team with a hands-on adventure at the Tech Toy Exploration Station! Children from Year 1 to Year 6 had the chance to explore the programmable devices we have in school, including Cubetto, Bee-Bots, and ScratchJr tablets.

The aim was simple: to spark curiosity and creativity while learning about safe and respectful technology use. Children worked together across year groups, solving challenges like guiding Bee-Bots to safe online choices and coding kind messages in ScratchJr.

It was great to see our pupils asking questions, experimenting, and sharing discoveries. A fantastic start to their journey as digital leaders!
