

Today we will be talking about cyber bullying , our fund raiser near Christmas and recapping on Live chat Wednesdays .

What is Cyber Bullying?

Cyber bullying is an act of online bullying that has happened more than once but not face to face.

This can be calling people names and just being very mean to people on purpose.

How to stop a Cyber-Bully!

- **Never** reply to their messages.
- Tell a trusted adult what is happening so that they can help you.
- Take a screenshot as evidence.
- Only answer a call if you know the person who is ringing you.
- Remember that it is not your fault.

Don't Be a Bystander

A bystander is someone who watches something happening but does nothing to help. **When cyber bullying happens there are often many bystanders who take no notice.** They think it is none of their business or can't be bothered to try and stop it. When bystanders spread a cyber bully's nasty messages they become bullies too. Instead, offering support to a person that is being bullied or reporting the bully can make a huge difference.

REMEMBER...

- When you send something online you can't 'take it back' or make it disappear.
- Everything you do online leaves a digital footprint.

- When something is shared it is shared FOREVER!

Reach Out!

It is extremely important that you remember to tell an adult ,a member of staff or a DSL if you are worried about anything online or if you have a problem.

Do you know who the DSLs are?
